

# BMW M 1000 RR

Product Name: **Evolution Line (Titanium)**

Product code: **S-B10E11-APLT**

Approval: W/O

**MSRP ex. VAT: 2.550,00 €**

## INFO

The flagship of the Akrapovič exhaust system range, used and tested by our top factory teams in motorsport racing. It is simply the finest performance exhaust system available. Each model is unique and dedicated to maximizing the performance of an engine, while reducing overall weight for optimized handling of the whole motorcycle.

Including brand-new designed oval flanges from Akrapovič in-house foundry, it is made entirely of titanium. The unique shape of the muffler, with its embossed imprint that run all the way along the exhaust and blend in seamlessly with the hand-crafted carbon fibre endcap, takes design to new levels.

For perfect performance, throttle response and durability, ECU remapping is recommended.

On the product image, the system is shown together with optional carbon heat shield P-HSB10E3. Carbon fibre muffler bracket (needed for mounting if passenger footrests are removed) is already included within the system.

The product is developed and tested on EU vehicle specification. Non-EU fitment and performance may vary by marketplace and different vehicle specification.

THIS PRODUCT DOES NOT MEET EMISSION COMPLIANCE REQUIREMENTS FOR STREET OR HIGHWAY USE.
