

Italjet Dragster 300

Product Name: **Slip-On Line (Titanium)**

Product code: **S-IT3S01-HRTBL**

Approval: EC, ECE

MSRP ex. VAT: 880,20 €

INFO

Beautifully designed fully EC/ECE type-approved exhaust with a titanium muffer outer sleeve that is painted black and finished with an engraved Akrapovič logo. A stainless-steel link pipe and a handmade carbon-fibre end cap complete the construction to provide a sporty look in keeping with the futuristic lines of this “urban superbike”. Impeccable throttle response and a 29,7% (1.5 kg) weight savings over the stock system add to the performance of the exhaust. It delivers a power gain of + 0.5 kW (0.7 hp) at 7500 rpm and a torque increase of +0.8 Nm at 7500 rpm when measured on the Akrapovič dyno against a Dragster 300 with a standard stock exhaust system. This is an exhaust that performs as good as it looks and sounds. It is easy to install, and there is no need for any remapping. An optional carbon-fibre heatshield is also available to add the finishing touch.

The catalytic converter is included in the product and the EC/ECE type-approval is valid only when the catalytic converter is installed.
