

Suzuki GSX-8S / 8R

Product Name: **Racing Line (SS)**

Product code: **S-S8R1-HHAKESS**

Approval: EC, ECE

MSRP ex. VAT: 1.195,00 €

INFO

Inspired by the concept shown at EICMA in 2024, this exhaust has been designed to seamlessly integrate with the bike's lines. Constructed in one piece from high-grade stainless steel and shaped through the use of high-end technology, with the catalytic converter welded inside the muffler. It is finished with a handmade carbon-fibre cover, which incorporates the outlet with a honeycomb exhaust protection and an Akrapovič logo in red and white.

It features plug-and-play installation with no remapping required. Focus was placed on optimal throttle response and performance during development, which has resulted in a power increase of 1.8 kW (2.5 hp) at 9,500 rpm and a torque boost of 1.4 Nm at 5,500 rpm when compared to a Suzuki GSX-8S with a standard stock exhaust system and tested on the Akrapovič in-house dyno. Weight is reduced by 29.1% (2.2 kg) compared to the standard stock exhaust system. Delivering a deep and sporty sound, this full system is EC/ECE type approved and Euro 5+ compliant. It has been designed so that it can also be mounted in combination with the original Suzuki soft sided case set.
